PROJECTS

Carbon Footprint Calculator (Web-Based) HTML, CSS, JavaScript	February 2026
• Developed an interactive web-based calculator estimating weekly CO₂ emissions based on transportation, electricity usage, flights, and dietary habits. • Implemented an interactive UI using HTML, CSS, and JavaScript, and visualized emission data using bar, pie, and line charts. • Simplified carbon footprint analysis by providing clear emission breakdowns and actionable suggestions to help users reduce environmental impact.	

Student Management System Java, OOP	May 2025
• Built a console-based application to manage student records and marks with full CRUD operations. • Implemented modular OOP design and layered architecture using Java and Collections Framework. • Enabled efficient data handling and management of student information through clean object-oriented principles.	

CERTIFICATES

• Database Programming with SQL – Oracle Academy Certification	Nov 2025
• Design Thinking – A Primer – NPTEL (IIT Madras) Elite Certification	Aug 2025
• Object-Oriented Programming – Guvi HCL Certification	May 2025

ACHIEVEMENTS

- Solved over 350+ coding questions on LeetCode and GeeksforGeeks.
